## TEDDY BLAKESLEY, SON OF MR. AND MRS. EU- GENE BLAKESLEY CAUGHT IN BIG CHAIN

Before Chain Could be Stopped  
His Body was Horribly  
Mangled and He Lives  
Only Few Minutes

This Saturday afternoon, Teddy Blakesley, the eldest son of Mr. and Mrs. Eugene Blakesley of this city, was caught in the chain which carries the logs into the mill and was crushed to death. The boy was fishing under the log way and in some manner became tangled in the big chain and before it could be stopped one leg was torn off and he was otherwise injured so that he lived only a few minutes.

A wedding of interest to St. Helens and Scappoose people was solemnized at Vancouver on Sept. 16 when Virgil Stevens and Miss Anna L. Graham were united in marriage. Virgil is a native son of this County and is well and favorably known by nearly everybody in this vicinity while the bride is the daughter of Mr. and Mrs. Graham of Houghton, Texas, but has been teaching school in Oregon for the past two years. They have purchased a residence in St. Helens and will make their home here.

## COUNTY FAIR GREAT SUCCESS

EVERY BUILDING FILLED TO CAPACITY  
WITH EXHIBITS

### G. L. TARBELL RE-ELECTED PRES'T

Various Superintendents Perform Work in Efficient Manner

There was an exhibit at the fair this week which was of the greatest importance to the farmers of this community and which excited considerable interest and comment. Mr. L. E. Gulkar had on exhibition some brick made from the sub soil obtained from burning stumps. This soil was mixed with cement and pressed, the result being a good quality of building brick. Some more samples had the sub soil from under the burned stumps with cement and a little sand added which seemed to be the equal of any first class brick. Mr. Gulkar says the process of making the brick is very simple and any farmer can get one of the machines at a nominal price and be equipped with an outfit that will produce good brick at a very low cost. Mr. Gulkar has one of the machines on his farm at Bachelor Flat and says he will be glad to demonstrate its use to any one who wants to see it.

The Columbia County Fair this year is bigger and better than ever. More exhibits are in the pavilions and stock sheds than ever before and the crowds of people attending are larger than ever before. There is just double the room in the buildings this year over that of last year and nearly every building is full to capacity. The exhibition of fancy work, sewing, embroidery, quilts, etc. is said to be the best ever exhibited in this part of Oregon. People who have visited other and larger fairs say that the Columbia County fancy work exhibit excels in quality and quantity. In this issue we give a partial list of the prize winners and this list will be continued next week.

Mr. G. L. Tarbell was re-elected President of the fair association and L. R. Rutherford, secretary. During the evenings the St. Helens band has furnished open air concerts at the fair grounds which were appreciated by the crowds of people attending. Mrs. Fred Trow of Rainier, Mrs. Edwin Ross and Mrs. W. B. Dillard of St. Helens, Mrs. J. G. Watts of Scappoose and Mrs. G. L. Tarbell of Yankton had charge of the pavilion in which the fancy work, sewing and school exhibit were on display at the fair grounds this week. The various exhibits in this pavilion were most artistically arranged so as to show to the very best advantage. This committee of ladies were courteous and attentive and deserve the very highest praise of the exhibitors and visitors. There was a work well done and most heartily appreciated. W. J. Fullerton in charge of the fruit and farm pavilion was also the right man in the right place. He proved his efficiency as a fair man by the fair and courteous manner in which he handled this difficult portion of the fair.

Mr. George Hasty, in charge of the horse sheds and exhibits also proved to be a successful man in charge of his department as were also Guy Tarbell of the cattle exhibits and Ray Tarbell of the poultry sheds. Mr. G. L. Tarbell, the president and T. Brown, secretary, were unceasing in their efforts to please and satisfy the people and to make of the fair the eminent success which it was. Altogether the whole fair was handled in a first class manner which left very little room for complaint.

Mr. and Mrs. J. W. Armstrong of Goble were visitors at the fair in St. Helens this week. Mrs. Armstrong had a collection of fancy knitting which was awarded the blue ribbon. On Thursday Mrs. Armstrong was matron of the rest room which had been provided by the Pomona Grange at the fair grounds and which was a most popular innovation.
